Scope of the Contest – *(Defined by the National Competition Regulations)*

(District Competitions are meant to be a scaled down version of National Competition. It is important for the students to participate in a competition that will reflect a cross-section of the industry skills needed to prepare them for the state and national levels)

The contest is defined by industry standards and set by the current industry technical committee that includes: Adobe Systems Inc., Cisco Systems Inc., Macromedia, Microsoft Corp. and World Organization of Webmasters (WOW).

Knowledge Performance

The contest consists of a written knowledge exam assessing the team's general knowledge of definitions, software, processes and procedures relevant to Web design in such areas as: graphics, design, layout, programming, code and process.

This team event includes topics such as: programming (HTML, XHTML, JavaScript, client side scripting), Web graphics, Web site design (usability), Web site management, project management and Web multimedia. Legal issues surrounding the field of Web design will also be considered a part of this contest.

Skill Performance

The students will be given a 4 page website to design from scratch, each group will receive the text and page specific images. The students will also be provided with a few images to choose from for the overall look and feel of the web design. The students will upload it locally for review.
